

IDIV

AR 15

Constitution	pseudo solution of acrylic copolymer
Appearance	yellow liquid
Active substance	20-21%
Character	anionic
pH	8-9

Method of use

AR 15 is a very fine resin dilutable in any ratio in water and compatible with all the finishing chemicals having the same anionic reaction.

AR 15 forms a very elastic and soft film with excellent properties of adhesion to the leather.
Thanks to those characteristics **AR 15** can be used as a base coat in full grain leather.
The grain remains flat without any overloading also with good covering.

AR 15 is particularly suitable for soft leather to which it confers good resistances.
