

IDIV

## AR 91

Constitution	acrylic copolymer
Appearance	white liquid
pH	7.5-8.5
Character	anionic
Active substance	36% app.

## Method of use

**AR 91** is a very fine resin binder dilutable in any proportion with water and compatible with all the chemicals having the same anionic or non ionic character.

**AR 91** has a good mechanical stability and a good fastness to alcohol.

Thanks also to its characteristics **AR 91** can be considered as a multipurpose resin binder that forms a glossy, compact and elastic film of medium hardness.

Remarkable is its capacity of crosslinking also at room temperature during a reasonable period of time.
