

IDIV

BI 001

Constitution	casein binder modified with natural waxes
Appearance	viscous liquid of pearl colour
pH	7.3-8.3
Active substance	11.5%
Character	anionic

Method of use

BI 001 is a very soft binder with a natural and pleasant hand.

Perfectly glazeable it can be used in the grounds as well in the tops together with harder binders to confer the leather a more natural touch. It is very suitable for polishable pre-bottom.

BI 001 can be used also in the resin finish for garment thanks to its characteristics of good adhesion and filling properties.

BI 001 is a binder of general use and quantity suggested is of 200-300 grs per liter solution in the grounds and 50-100 in the tops

BI 001 can be used with all the chemicals of **IDIV's** line having the same or non ionic character.
