

IDIV

BI 11

Constitution	modified casein binder
Appearance	viscous liquid
pH	7.8-8.8
Active substance	12.5-13%
Character	anionic

Method of use

BI 11 is a medium hard binder that can be used both in the resin and casein finish. It has a good bonding power and a natural touch.

BI 11 is perfectly glazeable and it is used in the intermediate and final coats conferring the skin a good gloss and brilliancy, maintaining a very pleasant hand.

In the resin finish **BI 11** can be used with good result in the ground and in the medium coat. In the plate finish it can be used in combination with **UR 84** to make more pleasant the hand without effecting the shine of the leather.

BI 001 can be used with all chemicals of **IDIV's** line having the same or non ionic character.

edition 07/2001
