

IDIV

BI 30/P

Appearance	off white liquid
Constitution	modified polyamide binder
pH	7.5-8.5
Character	anionic
Active substance	21-22%

Method of use

BI 30/P is a modified soft polyamide dilutable in any proportion with water.

It has a very high versatility of employment because it can be used in the grounds as well in the tops with any kind of finish.

The characteristics conferred to the skins are remarkable: glazeability, brilliancy and gloss.

BI 30/P is perfectly glazeable and polishable and its good mechanical characteristics are improved using 1-1.5% of **TOP 7** on **BI 30/P** weight.

Excellent is also the hand: slightly waxy and very natural that makes particularly advisable its use.
