

Constitution	mixture of waxes and selected natural substances
Appearance	cream liquid
pH	4.8-5.5
Active substance	13-14%
Character	cationic

Method of use

FIL 80 is mainly used as a touch modifier in the tops. An appreciable result can be obtained mixing **FIL 80** with **FIL 36** because changing the ratios, several different touches can be obtained.

Used alone **FIL 80** has a warm and waxy touch.
