

IDIV

IDOIL SI/02

Appearance	clear liquid of amber colour
Constitution	sulphited fish oil
Character	anionic
pH	6,5-7,5
Active substance	80%
Fat content	75%

Method of use

IDOIL SI/02 is a fatliquor that penetrates into the section of the leather conferring a good softness. Therefore it is particularly suitable for upholstery and generally for soft leather. But it can be used also in nappa for garment especially in combination with **IDOIL NL**.

In chrome retanning it penetrates deeply and the baths are fully exhausted. It is also stable to electrolytes and, thanks to this characteristic, **IDOIL SI/02** can be used also in the pickle bath.

IDOIL SI/02 can be used with success with all kinds of leather where softness and pleasant hand are required.

The emulsion in water of **IDOIL SI/02** is very fine and stable.
