

IDIV

IDOIL SOL/01

Appearance	clear liquid of amber colour
Constitution	sulfonated of sperm oil substituted
Character	anionic
pH	5-6
Active substance	70%

Method of use

IDOIL SOL/01 is an oil of excellent quality, made with highly selected raw materials that gives a very fine and stable emulsion.

IDOIL SOL/01 is a multipurpose fatliquor particularly suitable for glazed and burnish articles and for velour.

Suitable for any type of leather, chrome or veg, **IDOIL SOL/01** is dilutable in any proportion with water better if at 40°C and has a good light fastness.

Leather processed with **IDOIL SOL/01** shows a round hand and a firm grain. Quantity to be used is in the range of 3-6% on shaved weight.

For glazed chrome skins it is advisable to use **IDOIL SOL/01** with **IDOIL 44** and **IDOIL 140**, meanwhile for the high shine veg articles it is suggested to use it together with **IDOIL 012** and **IDOIL 44**.

At temperature lower than 15°C the presence of a light opalescence of active substance is possible. It is sufficient to heat it at 25°C and to stir lightly to let disappear that opalescence and the oil becomes clear again.
