

IDIV

PT 02

Constitution	mixture of solvent and wetting agent
Appearance	clear liquid
Character	anionic

Method of use

PT 02 is dilutable in any proportion in water and is an excellent penetrator. It is advisable to use it every time there is the necessity of impregnation.

Used in combination with **AR 10/I**, **PT 02** increases remarkably the impregnation speed with several advantages like for example a very quick and perfect drying of the leather.
