## SYN 80/NE

<b>Appearance</b>	white powder
<b>Constitution</b>	buffing salt mixture
<b>Active substance</b>	> 99%
<b>Character</b>	anionic
<b>pH</b>	7.5 in water solution 1:10

### Method of use

**SYN 80/NE** is a neutralizing agent and its constitution is a mixture of organic and inorganic salts.

Thanks to its strong buffing action the neutralization takes place eliminating the acids through the weak ions. This mild action allows to be not aggressive to the grain mantaining it flat and smooth.

**SYN 80/NE** can be used also in the combination with sodium bicarbonate. In this case the neutralization starts with **SYN 80/NE** and can be over with little quantity of sodium bicarbonate.
