

IDIV

SYN DL

Appearance	powder of beige color
Constitution	synthetic tanning agent
Active substance	93%
pH	3-4
Character	anionic

Method of use

SYN DL is a fine powder easily soluble in water and compatible with all the veg extracts and syntans salt stable.

SYN DL if employed alone gives a white leather, light fast, with good fullness.

Skins processed with **SYN DL** can be easily snuffed and therefore it is suitable also for nubuck.

SYN DL if employed in the veg skins improves the fulness and the softness, with some bleaching effect.
