

IDIV

SYN FM

Appearance	off white powder
Constitution	based on formaldehyde-melamine polymer
Character	anionic
Active substance	80-85%
pH	7.5-8.0

Method of use

SYN FM is a retanning agent with very good filling properties and with a high light fastness. The colours obtained are full and brilliant.

SYN FM has an excellent light fastness.

SYN FM can be used also for leather to be buffed or for nubuck because it increases the mechanical workability.

SYN FM can be used in combination with other retanning agents of **IDIV's** line.

edition 03/2003
