

IDIV

UR 15/B

Constitution	dispersion of aliphatic polyurethane
Appearance	white liquid
pH	6–8
Active substance	anionic
Solid content	40% app.

Method of use

UR 15/B is a softy rubbery touch polyurethane especially used on the tops of buffed leathers thanks to its upgrading capacity.

It has excellent covering properties and very good mechanical characteristics especially high flex.

To get a smooth surface the leather processed with **UR 15/B** must be rotopressed at 110°C.

UR 15/B can be given by roller coating machine or by spraying.

edition 05/2005
