

IDIV

UR 430/L

Appearance	transparent-opalescent liquid
Constitution	aliphatic polyurethane in water dispersion
Active substance	35% app.
pH	8.0-9.0
Character	anionic

Method of use

UR 430/L has a transparent and very glossy film of medium hardness.

UR 430/L is used especially in the top coats when it is required a brilliant gloss similar to a patent look. In this case an application with roll coating machine is recommended and after a high temperature rotopress at medium pressure.

It can be cross linked using **TOP 7** and the mechanical fastness especially the wet rub, becomes remarkable.
