

# IDIV

## UR 87

Constitution	very fine water dispersion of aliphatic polyurethane
Appearance	clear liquid
pH	7.5–8.5
Character	anionic
Active substance	30-31%

### Method of use

**UR 87** is a polyurethane with very good adhesion property and it can be used especially in the tops with the proteic binders of **IDIV**'s line.

Its film is transparent, colourless, soft and has good mechanical properties like wet rub, fastness to solvent etc. These properties can be further improved using in the solution the usual quantity of **TOP 7**.

According to its characteristics **UR 87** can be employed in the finishing of good quality articles.
