

IDIV

WX 02

Appearance	off white liquid
Constitution	blend of paraffinic waxes
Character	anionic
Active substance	30%
pH	8.5-9.5

Method of use

WX 02 is a paraffinic wax better if it is used in combination with **IDOIL 44** or **IDOIL WPU** in order to get a good pull-up effect on buffed vegetable or strongly veg retanned leather.

It is advised to apply the wax and oil mixture by roll coating machine, rest overnight and then plating and staking to open the fibers of the skin.

As the **WX 02** seals the leather very well, it is advisable to spray after the wax a coating that assures the adhesion. For this purpose it is recommended **UR 105/A**.
