

IDIV

WX 52

Appearance	white-cream liquid
Constitution	emulsion of natural and selected fatty acid
pH	7-8
Character	non ionic
Active substance	12-14%

Method of use

WX 52 is dilutable in any proportion in water. Since it has a non ionic character, it can be employed with all the **IDIV's** finishing product.

WX 52 can be useful either in the bottom where it acts as a filler or in the top where it leaves a waxy, pleasant touch. In this last case a dilution 1:2-1:3 with water is suggested.

WX 52 can be used also in combination with **BIND KT** or **BIND KV** in the finish for burnish leather where it gives a pleasant and good gloss.
