

IDIV

WX BR

Appearance	white liquid
Constitution	emulsion based on paraffinic wax
pH	6.5-7
Character	lightly anionic
Active substance	40% app.

Method of use

WX BR is dilutable in any proportion in water. Its emulsion is fine and its character lightly anionic allows the use also in lightly cationic solution after having checked the compatibility.

WX BR is particularly suitable for high gloss articles and better as a ground together with **GROUND OIL** to cover the grain defects improving the appearance of the leather.

WX BR is however a general purpose wax and can be employed with success in all kind of articles in the ground and in the top where it confers hand and appearance.
